

RiseWeb

Whether you are looking for a simple site to get you a presence on the web or something a little different to be the show case of your company we can help. We do not use templates to create our sites meaning you don't end up with a very rigid, square, blocky looking website but instead end up with something looking great designed for you.

We believe that custom designed websites needn't be out of reach – that's why we don't provide set packages and we don't provide a '**website from**' price either. We treat your website as a project and as such price everything you require accordingly and provide a quote for you, not someone else.

At Rise Solutions we do not believe in borders and boundaries, we do not restrict the number of pages you can have in your site nor do we restrict the size of the site you want, it can be as big or as small as you wish.

One other thing you may want to bare in mind when choosing a web design or development company and that is the content; who is responsible for that? Because we offer a unique mix of IT and Communications we have in-house PR specialists on hand to perform copy writing to make your website look and sound right. All too often sites look great and are well put together but the content doesn't get the message across properly.

We can help you with:

- **Domain name sourcing**
- **Hosting**
- **Unlimited Pages**
- **Unlimited Bandwidth**
- **Unlimited Size**
- **Website Design and Programming**
- **PR Copy Writing**
- **Content Management Systems (CMS)**
- **Website Optimisation**
- **Unlimited Email Setup**

Also available is something a little different and that is the facility to be able to log onto your development site to be able to see work in progress so you can instantly see if you are happy with the look and feel of the site.

Call us for a chat on **08450 940 773** or email us at **info@risesolutions.co.uk** to see how we can help you.
